[SpecialEducationAttorneys@gmail.com](mailto:SpecialEducationAttorneys@gmail.com)

If your child has, or if you suspect that your child may have, a disability or condition that may affect his or her education, you will need to become well-versed in special education law and procedures. The process of ensuring your child receives an appropriate education can be daunting to any parent.

I can help you navigate this process, negotiate for appropriate services and accommodations for your child, and, when necessary, litigate to ensure your child receives an appropriate education. I will also help empower you to become an effective advocate for your child. Every child is entitled to a free, appropriate public education.

## How To Kill A Business In Ten Easy Steps.

1. **Don't advertise.** Just pretend everybody knows what you have to offer.
2. **Don't advertise.** Tell yourself you just don't have time to spend thinking about promoting your business.
3. **Don't advertise.** Just assume everybody knows what you sell.
4. **Don't advertise.** Convince yourself you've been in business so long customers will automatically return to you.
5. **Don't advertise.** Forget that there are new potential customers who would do business with you if they were urged to do so.
6. **Don't advertise.** Forget that you have competition trying to distract your customers away from you.
7. **Don't advertise.** Tell yourself it costs too much to advertise and that you don't get enough out of it.
8. **Don't advertise.** Overlook the fact that advertising is an investment in selling - not an expense.
9. **Don't advertise.** Be sure not to provide an adequate advertising budget for your business.
10. **Don't advertise.** Forget that you have to keep reminding your established customers that you appreciate their business.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Level: Advanced

### Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

ANSWER:

## RECIPE

### TOMATO-CHICKEN PASTA

Cream gives the sauce a rich, silky finish.

(Time-Saver: Using sun-dried tomato sprinkles saves you from having to chop whole sun-dried tomatoes.)

- 1 (9-ounce) package fresh fettuccine
- 1/4 cup boiling water
- 2 tablespoons sun-dried tomato sprinkles
- 2 teaspoons olive oil
- Cooking spray
- 1/2 cup finely chopped shallots
- 1 pound chicken breast tenders, cut into 1-inch pieces
- 1/2 cup dry white wine
- 1/3 cup whipping cream
- 1/2 cup chopped fresh basil, divided
- 1/4 cup (1 ounce) preshredded fresh Parmesan cheese
- 1/2 teaspoon salt
- 1/4 teaspoon freshly ground black pepper

package directions, omitting salt and fat. 2. While pasta cooks, combine water and tomato sprinkles in a small bowl; let stand 5 minutes. Drain.

3. While tomato soaks, heat oil in a large nonstick skillet coated with cooking spray over medium-high heat. Add shallots and chicken, and sauté 5 minutes. Reduce heat to medium; stir in wine and cream. Cook 3 minutes, stirring occasionally.

4. Combine the pasta, tomato, chicken mixture, 1/4 cup basil, cheese, and salt, tossing well to coat. Sprinkle with 1/4 cup basil and pepper. Yield: 4 servings (serving size: 1 1/2 cups).

## Tales from the Front

By Cheryl Lavin

### CHEATING HUSBAND HAS A DAUGHTER

It sounds like an episode of "The Young and the Restless" but it's real life. Courtney's real life.

Courtney and Bill had been married for eight years when she discovered that Bill had been having an affair for a year with his secretary Deidre. And if that weren't enough, Deidre had become pregnant with Bill's baby. And if THAT weren't enough, Courtney found out about the affair and the baby when the sheriff's deputy delivered paternity papers to her home. But wait, this all happened while she and Bill were in the process of adopting a baby.

Let's back up. During the year of the affair, Courtney says she asked Bill "many times" if something was going on. "I just felt that something was *different* but I had no

proof. Every time I asked him, he denied it. The day before the arrival of the sheriff's deputy was the last time I asked him. He told me that not only was he not having an affair, he was getting upset that I kept asking him.

"When the sheriff's deputy arrived, I was alone in the house with our five-year-old son. I was waiting for Bill to come home so that we could leave for a weekend, just the two of us. We didn't go."

Law-abiding citizens don't usually have someone from the sheriff's department ringing their doorbell, serving them with legal papers. After the shock, Courtney began to read the petition. She said first she felt sadness. "Then relief that I wasn't crazy. Then embarrassment when I realized the deputy was watching me read the petition and learn that my husband had been unfaithful and had a six-month-old baby daughter named Alexis. Then sadness again when the deputy apologized for having brought me the news. Anger came and pitched a tent the next day."

A woman who finds out her husband has had an affair should be allowed some time to wallow in her emotions - all of them. But Courtney didn't have that luxury. There was a baby to consider. Courtney's first pregnancy had caused complications. She and Bill had gone through fertility treatments in order to have another child, but they hadn't worked. They had decided to adopt.

"We had just found out that the adoption was going through when I learned of the affair. Their adopted daughter Andrea and Alexis are six months apart.

Courtney says she thought about leaving Bill "many, many, many times. But I took my marriage vows seriously." She agreed to stay with him but she had certain conditions that he had to meet. One of them was that he be a real father to Alexis "not just a check in the mail. It wasn't her fault. She was just a baby."

As soon as she learned about Alexis, Courtney insisted that she and Bill visit her often, together. She wanted Andrea

and Alexis to know each other and know that they're sisters.

"When they were younger, they used to be friends. Once Andrea got older, and she became aware of the circumstances, they grew further apart. They'll always be sisters but that doesn't mean they'll be friends. And that saddens me a lot. I consider Alexis my daughter, too, and I love her."

Alexis and Andrea are now 14-years-old. Courtney and Bill have been married 22 years. They see Deidre every weekend when they pick up Alexis. Courtney says, "Bill and Deidre are her parents and they act accordingly."

Courtney used to be friends with Deidre but that friendship is, of course, long over. "We are cordial, nothing more. Things I had wanted to say to her were not worth the pain they would have caused Alexis. I used to have fantasies of visiting her with a baseball bat but I chose not to act on them. It was an extremely difficult decision. I sometimes wonder if I chose wisely."

## Making The Garage An Organized, Family-Friendly Space

In the flurry of today's active family lifestyles, it is clear that the garage is no longer just the domain of the family car. For many households, this versatile space is used by every member of the family. It has become the logical place to store tools and gear for sports, hobbies, yard work and playtime, along with out-of-season items that would otherwise take up room inside the home.

However, with so much to hold and family members coming and going all the time, the challenge is to keep this space neat and well organized.

To help, here are some garage design tips from EasyClosets—an online provider of do-it-yourself custom storage and organization systems for all areas of the home.

- Establish the transition area—the space that's reserved for hanging coats, storing shoes and boots, and setting down packages, groceries or mail when you're opening the door.

- Next, determine a need-it-now area for quick and easy access to things like dog food and leashes, water bottles and other beverages, or recycling bins.

- Decide which area is best for long, thin yard and maintenance tools like shovels, rakes and clippers.

- Identify elevation zones, creating a storage area for large items that may be stored out of the way for months at a time, such as coolers, camping gear and holiday decorations. Reserve easy-to-reach areas for the kids to keep their sports equipment.

- Plan an area for frequently used items such as active gear, outdoor games and cleaning supplies.

- Stake out a workspace for hobbies and interests. From gardening to fishing, woodworking or automotive work, designate a space for organizing tools and supplies needed to work on these projects.

### A Multipurpose Space

To help homeowners complete the conversion of their garage to a truly multipurpose family space, EasyClosets created organization solutions that keep the garage in order, improve its appearance, and make it easy for family members to find or put away the things they need.

"Transforming the garage into a hardworking, multipurpose space can actually empower a family's active lifestyle," said EasyClosets organization expert Denise Scopas.

Homeowners can choose from cabinets, shelves, drawers, work surfaces and clever accessories. EasyClosets garage cabinets are available in several depth and height options, and can even be customized to meet a variety of width requirements. To maximize space, the company also offers slatwall panels to hold hooks, racks and baskets. The cabinets come in seven on-trend colors and with stylish hardware that coordinates with today's homes.

Designed and engineered especially for the garage environment, the solutions feature heavy-duty cabinets with integrated full back panels, one-inch-thick sturdy shelves, and doors with wide-opening Euro-style hinges. Legs can also be added for additional support or style.

### Intuitive Design Feature

The company offers an intuitive online design tool to make space planning quick and easy for homeowners. Complimentary design service is also available, allowing customers to have an expert review their plan or create it for them. The solutions are made specifically for do-it-yourself installation. Components are cut to order and shipped with a complete set of hardware and detailed instructions to make home assembly successful—even for those without remodeling experience.
